Create More

ZHIYUN is igniting the portable visual storytelling 2.0 era with CRANE-M 3S - a product with the perfect blend of strength and grace. The Bluetooth shutter control and two-in-one quick release are crafted for every user to capture stunning visuals effortlessly, marking a new milestone in the filmmaking industry that you won't want to miss.

FEATURES

Miniature Marvel

Weighing in at just 705 grams, this lightweight powerhouse strikes the perfect balance between portability and high load-bearing capacity with mainstream cameras.

*For more details on the compatibility, please visit the official website.

Stunning Clarity for Your Shots

The Lumen Amplifier technology created by ZHIYUN boasts a tiny yet powerful light source that is no bigger than a fingernail to emit up to 1000 lux brightness.

Installation Simplified

Battery replacement is now a breeze. With the two-in-one new quick release system, you can do it without having to disassemble your camera. Repeated balancing? Also became history.

Limitless Shooting

Unlock infinite possibilities with CRANE-M 3S with multiple gimbal modes and built-in shooting features.

Wireless. Hassle less.

Say goodbye to complicated cable connections. With the Bluetooth shutter control, you can wirelessly control the zoom and record with just a touch.

- 1.22-inch Large Color Screen
- Optimized Axis Locks
- Store and Go in Backpack
