*On the following pages,
discover how
you can save
a lot time, money and
stress in everyday life,
and why our smart
devices in particular are
the perfect helpers
for this ...*

Everything follows your command

Our products are very simply ...

... **voice controllable** with

Smart upgrading – easier than ever before

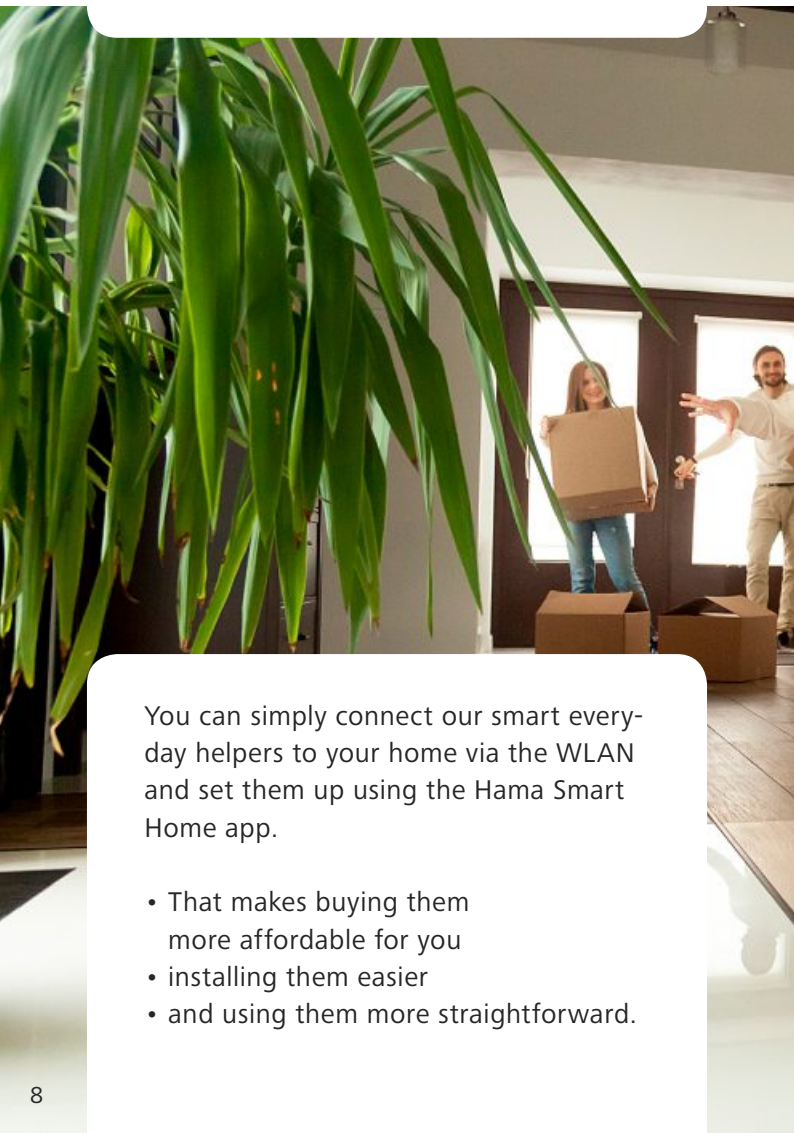

Do you still dream of the perfect home and want to make your everyday life smarter, bit by bit?

Then our products are perfect for you!

You can simply plug most of our smart devices in, integrate them into the Hama Smart Home app and start using them right away.

Even more freedom – without a gateway or bridge

You can simply connect our smart everyday helpers to your home via the WLAN and set them up using the Hama Smart Home app.

- That makes buying them more affordable for you
- installing them easier
- and using them more straightforward.

We guarantee you maximum freedom

Our products are compatible not only with each other, but also with smart devices of other manufacturers. The main thing is that all connected devices work with Amazon Alexa or Google Assistant. So we offer you every possibility, allowing you to add other smart functions of your choice to your smart home at any time.

***OK Google,
light on,
TV off,
and turn the
heating down!***

**Even more
smart possibilities
in the app**

Here's how it's even easier:
Instead of controlling each device
individually, you can set up practical
scenes in the app with a few clicks.

Imagine, for example, that the decorative lighting in the living room should come on fully automatically exactly at sunset. Or that the voice command “Fairytale hour” switches on the chain of lights and the turns the heating up to a cosy 22 degrees.

*Your smart everyday helpers,
all gathered together
in an app.
The Hama Smart Home app.*

Our wide selection always offers you enough choice

To ensure you always have the smartest solutions available for all everyday situations, we are constantly expanding our range. Whether for lower electricity consumption and heating costs, the perfect lighting, greater safety or for a pleasant indoor climate – we offer a diverse selection for your next step towards a smart home.

On the following pages, discover a small selection of our large product range ...

*I don't want to brag, but ...
I can control each socket individually.*

4-way WLAN socket strip
Item No.: 00176574

Outdoor WLAN socket
Item No.: 00176570

*Decorative lighting
in the garden?
I can control it!*

Air purifying

The WLAN sockets control, for example, the decorative lighting and find power-hungry consumers in your house. Particularly clever is their timer function, which allows you to replace conventional time switches and wireless sockets! We have smart sockets in every size for indoor use and weatherproof versions for your outdoor terrace or garden.

WLAN socket
with consumption measurement
Item No.: 00176575

*I measure how much electricity
I use right away.*

AIR PURIFYING

For more health and well-being at home:
Thanks to the powerful triple filter incl. HEPA 13 filter,
our smart air cleaner removes up to 99.95% of all
viruses, bacteria, pollen and odours from the indoor air.
The Hama Smart Home app can also be used to monitor
the air quality in real time and the air cleaner can be
controlled remotely and while you're out.
