- For all flash units, lights, syncromats and tilt heads with a standard accessory shoe
- For all photo/video cameras with a tripod socket
- Sliding A 1/4" (6.4 mm) camera screw and B 1/4" (6.4 mm) tripod socket
- Hand grip for ease of use
- With a hand strap for a secure hold
- Plastic surface
- Being foldable and compact, the bracket is ultra portable
- Larger illumination angle as the flash unit is attached next to the camera
- Prevents the effect of "red eye" as the flash comes from another angle and not directly from near the lens as this would be the case without a flash bracket
- Easy to use: the camera and flash unit are compactly attached to the flash bracket that ensures optimal weight shift for portrait shots
