# THE HOME AUDIO SMART SOLUTION

**hama**®  
THE SMART SOLUTION

## Designed in Germany

Everything begins with an idea, followed by an initial design sketch. This is gradually developed into a new product, which we finely adjust and optimise until it is perfect.

## Sound optimisation

As soon as the design and features are definite, fine-tuning begins. After numerous test phases, it is done and we can offer you a device that entirely delights you.

## HOME AUDIO

## High quality standard

We attach a lot of importance to the quality, functionality and above all safety of our products. Our internal quality assurance department therefore carries out testing with the latest equipment in accordance with the legal guidelines.

# HOME AUDIO Product reviews that speak for themselves

*'More is barely possible and is not necessary: The DIR3600MBT from Hama combines all modern hi-fi functionalities in a single device that delivers powerful sound...'*

Lite Magazin, 04/17, DIR3600MBT (00054836)

*'...The Hama radio has a voluminous sound, and the stereo effect is remarkable...'*

Audio Video Foto Bild, 01/17, DIR3500MCBT (00054838)

*'One has to give credit: For an Internet radio, the box is tonally great fun...'*

Audiovision, IR150MBT (00054850)

*'The Hama DIR3500MCBT has everything you desire: a top-class appearance, wonderful sound and – this is the most important thing – no backlog as regards the wide range of sources.'*

Lite Magazin, 10/16, DIR3500MCBT (00054838)

*'Can't be done, there's no such thing: The DIR3500MCBT from Hama masters almost every current playback technology and also sounds refreshingly good...'*

Audiovision, 02/17, DIR3500MCBT (00054838)

*'The Hama DIR3500MCBT not only cuts a fine figure visually, but also impressed us technically all along the line...'*

Digital Fernsehen, 01/17, DIR3500MCBT (00054838)

*'The small, chic Hama DR30 clock radio offers top analogue and digital radio reception...'*

Digital Home, 01/16, DR30 (00054822)

*'The best Internet radio for 200 euros.'*

Alles Beste, 02/18, IR80MBT (00054846)

*'The DIR3600MBT is without question the flagship from Hama and impressed in the test on a broad front, particularly in relation to the main criterion, namely sound quality.'*

Digital Fernsehen, 05/17, DIR3600MBT (00054836)

*'...a worthwhile investment...'*

Lite Magazin, 05/16, DIT2010MBT (00054833)

*'...It is tonally very sophisticated, visually appealing and has an extensive range of features.'*

Digital Fernsehen, 03/18, SIRIUM4000 (00054843)

*'The Sirium4000ABT from Hama is a sound system with astoundingly balanced, dynamic sound for the television...'*

Heimkino, 02-03/18, SIRIUM4000 (00054843)

*'The Hama SIRIUM3800ABT soundbar is a space miracle with powerful sound. Equipped with the latest streaming and voice recognition technology, it actually belongs in a category of its own. It is no longer purely a soundbar, not by a long chalk.'*

Audio Test, 03/18, SIRIUM3800 (00054852)

# SMART SOUND SYSTEMS

*"Alexa, play Coldplay."*

*"Alexa, softer."*

Smart home devices are increasingly finding their way into our homes and help in everyday life. They are digital assistants that make our life more comfortable. Amazon Alexa is one of these digital voice assistants.

Our SIRIUM series combines this new voice technology and brilliant sound in high-quality audio devices.

## Hama Intelligent Home App

Besides voice control or – depending on the delivery package – remote control, all our SIRIUM devices can be conveniently controlled from a smartphone or tablet using the Hama app. Initial setup of the devices can also be carried out conveniently using this app.

Overview of all devices and the most important functions, such as volume control, for example.

Select the desired source from the sources available.

Change the device name to be able to assign your devices explicitly.

Create groups that you can control synchronously.

## Amazon Alexa Multiroom\*

“Alexa, play my evening playlist in the entire home.”  
With Amazon Alexa Multiroom, you can synchronise your favourite music across your home and enjoy it in whichever room you are in. All compatible devices that have been combined into a multi-room group play your music in several rooms, on all speakers.

\*Soon available on compatible devices via update

## Spotify Connect – endless music enjoyment

With Spotify Connect, you can enjoy music wherever you want it. Whether on your smartphone, PC or directly through your smart speaker – when you change the playback device, the music continues at the exact point where you stopped. Millions of songs and always the most up-to-date hit lists, on demand or at the push of a button – that’s Spotify Connect!

SMART SOUND SYSTEMS

## SMART SOUND SYSTEMS

Get to know the world's first soundbars to have the Alexa Voice Service built in: the SIRIUM4000ABT and SIRIUM3800ABT. These smart soundbars come with a wireless subwoofer and produce unadulterated 2.1 sound. Experience the sound quality of our devices for yourself, irrespective of whether you are only listening to music, or watching an action film: These soundbars will inspire you.

○ 00054888

(available soon)

These radios cut a fine figure wherever you want to position them in your home. Like the other smart sound systems of the SIRIUM series, the smart radios can be controlled with Alexa Voice Control. Furthermore, they can be conveniently operated using the rotary control and the large colour display.

SMART SOUND SYSTEMS

## DIGITAL RADIOS

Discover the large variety of programmes available on the digital radio devices, and enjoy more stations in better quality than previously with VHF.

With our DAB+, Internet and hybrid radios, you receive the new digital standard either via DAB+ or the Internet. In addition, our devices offer many additional possibilities for music playback, for example, via Bluetooth, network streaming and music streaming services – or, in the traditional way, via CD.

### DAB+ Radios

Farewell to radio static – DAB+ is the new digital radio standard that transmits the radio stations in brilliant, clear sound quality wherever you are.

In addition to perfect sound, DAB+ offers additional multimedia services and user-friendly operation: Use the automatic station search for simple selection of the radio station from the station list.

With this digital transmission technology, you can receive many new stations both at regional and national level.

### Internet radios

Country music, reggae, jazz, techno, or maybe you prefer folk music after all? With an Internet radio, there are no limits when it comes to selecting music. Whichever genre you prefer – with over 30,000 stations from all over the world, no wish is left unfulfilled. With the device connected via LAN or WLAN, you can receive the stations from the Internet without the need for a PC. The station search is also very simple: Either enter a specific station directly, or filter by country and genre.

DIGITAL RADIOS

Powered by  
**UNDOK**  
MULTIROOM

## UNDOK Multiroom

Your sound in every room – almost all of our radios are compatible with UNDOK Multiroom and can be combined with up to five devices in a group. This group plays your favourite music synchronously on all devices – so your song is played in every room. And the best thing is: You can transfer sources from one device to another. In this way, you can listen to the CD from the living room on the devices that cannot play a CD.

## UNDOK App

All radios that are connected via the Internet can be conveniently set up and operated from your smartphone or tablet using the UNDOK app. Besides controlling the music, you can create multi-room groups or make settings here.

Overview of all UNDOK devices in the network.

Select the desired source for the selected device.

Change the device name to be able to assign your devices explicitly.

Current playback with volume control.

- LCD with backlight

● Designed  
● in  
● Germany

○ 00054871

Power socket radios are the right choice if you have limited space. They are connected directly to a power socket and therefore fit anywhere. Despite the compact size, you don't have to forego anything: There is a large display at the upper edge, and at the side there is a rotary control for operating the radio. With the speaker installed to the front, every millimetre is used perfectly.
